

# Practical considerations for delivering MRI to cardiac device patients

The vision of these seminars developed in conjunction with Barts Heart Centre is to ensure that patients with cardiac devices have safe and equal access to MRI scanning technology

A series of five 60-minute webinars providing comprehensive multidisciplinary recommendations and tips for starting or expanding cardiac device MRI services.

Target audience: cardiologists, cardiac physiologists, radiologists, radiographers, and medical physicists.

## Dates:

**Seminar 1** - Evidence base and guidelines for MRI in patients with cardiac implantable electronic devices (including MR Unlabelled devices)

**26<sup>th</sup> February 2024 18:00hrs**

**Seminar 2** - Review of cardiac implantable electronic devices for non-cardiologists

**11<sup>th</sup> March 2024 18:00hrs**

**Seminar 3** – Device programming for MRI (including MR Unlabelled devices)

**25<sup>th</sup> March 2024 18:00hrs**

**Seminar 4** – Tips and tricks to reduce artefact: Cardiac MR

**8<sup>th</sup> April 2024 18:00hrs**

**Seminar 5** - Patient workflow and tips for cardiac device MRI: multi centre experience including a recorded patient journey

**22<sup>nd</sup> April 2024 18:00hrs**

## SPEAKERS

**Professor CHARLOTTE MANISTY**  
Consultant Cardiologist

**Dr. ANISH BHUVA**  
Consultant Cardiologist

**Dr. JOHN BAKSI**  
Consultant Cardiologist

**SAM MARTIN**  
Senior Cardiac Physiologist

**EMILY WEBB**  
Senior Cardiac Physiologist
